THE DAYS OF JOHANN, AN AGILITY DOG!

## Why some folks have pups in NY?

We got an email the other day from the folks at [IntoTheBox.tv](#), telling us about a new video on their site discussing NY pups and their owners, the effects the pups have on their owners' relationships, and why men have pups vs. why women have pups.

Do women really have pups as a substitute for men, and do men really only have pups to use as chick magnets? Well, not anyone that I know, that's fur sure!

We were really glad, however, to see our new friend, J.E. Englert, author of [A Dog About Town](#), in the vid. He got a great plug for his book! Nice job Master Englert!
