Get Into a New Box with IntoTheBox.tv

Here's an interesting site for anyone in the New York City real estate market right now.

[IntoTheBox.tv](#) has lots of videos, pictures and information to help you find that dream deluxe apartment in the sky. I recently had an all-around good experience finding a new place in Manhattan, but I was lucky. I definitely would have wanted to check out this site had I known about it then.

The site seems pretty new, but has a nice design and a few cool features, like a spot to upload pics of your neighborhood for others to get a feel for the area. There is a collection of daily video casts that cover much of what you need to know when looking for a place in the city. They also have lots of links to relevant NYC real estate sites.
